

## UW-Madison 2020-21 | Reduced and low-cost parking options

Updated 1/12/21

Given the current public health situation, campus administration has authorized a temporary expansion of reduced cost parking options to be made available to graduate and professional students and lower-paid employees. These are groups with many public transportation users, some who may feel a bus commute is no longer their safest travel option. These 2020-21 parking options are available to:

- All UW graduate and professional students
- Employees with a UW salary less than \$35,000 per year in base wages

**Permit and pass availability will vary and may be limited.** Purchases can be completed in person at a Transportation Services office or via the contactless drive-thru at the 21 N. Park Street office. Only some purchases may be completed online—see options below. **Reduced cost, monthly, and semester permits cannot be purchased online**, they must be purchased at an office or the drive-thru option.

The expansion of and change in costs for parking are temporary and will only be for these specified groups during the 2020-21 parking year (Sept. 1, 2020 – Aug. 31, 2021)

Note: “Graduate students with UW employment” for the purposes of this chart means an appointment as a TA, RA, Fellow, etc. These types of appointments mean you are likely to be able to purchase certain products online. If you are unable to do so, purchases can be completed at any Transportation Services office.
