

Daily permit Usage instructions

Campus parking garages and ramps are equipped with an electronic gate system. Your daily permit will allow you to access a specific lot.

When entering and existing, scan the bar code on the back of your hangtag with the barcode scanner to activate the gate.

The barcode reader is located below and to the left of the touchscreen area.

Daily permit parking tips

- If the "lot full" sign is lit up, this does not apply to daily permit users. You may proceed to park in the lot.
- For assistance at the gate, press the "HELP" button to speak with a dispatcher.
- Display the permit from the rearview mirror with the lot number facing out.
