	Dirty or damaged interior caused by occupant negligence	\$25 or cost of repairs, whichever is greater		

The FY26 base rate for motor pool rentals includes a daily \$0.75 collision coverage fee.

Fuel, maintenance and insurance costs are included. If fuel prices exceed the budgeted amount by a significant margin, the rates will be amended with a fuel surcharge at that time and the change notice will be posted on the Fleet website's Rates page.

Mileage reports are due on the last day of each month with a grace period up to the 5th of each month.

Note: If a vehicle is acquired and does not match one of the categories, a new rate will be determined. Some rates for specific, specialized vehicles are not published here.

Notes on specific vehicles:

- 1) 8- and 14-passenger vans are no longer available in the motor pool.
- 2) Suburban and large 4x4 truck rentals require justification. The proposed use must require the attributes of these vehicles and not be fulfilled by another type of vehicle (such as a passenger minivan). Certain usage may be disallowed: for example, if there is no research, instruction, off-road, or towing requirement and the other pool vehicles are simply already booked. The Fleet program manager will provide solutions and assist with making other arrangements for travel if needed.
