Motor pool and long-term vehicle rental base and mileage rates for fiscal year 2027 are posted in the table. FY2026 rates are provided for comparison. New rates are effective July 1.

Dirty or damaged interior caused by occupant negligence	\$25 or cost of repairs, whichever is greater			

The base rate for motor pool rentals includes a daily \$0.75 collision coverage fee.

Fuel, maintenance and insurance costs are included. If fuel prices exceed the budgeted amount by a significant margin, the rates will be amended with a fuel surcharge at that time, and the change notice will be posted on the Fleet website's Rates page.

Mileage reports are due on the last day of each month with a grace period up to the 5th of each month.

Note: If a vehicle is acquired and does not match one of the existing categories, a new rate will be determined. Some rates for specific, specialized vehicles are not published here.

Note: Suburban and large 4x4 truck rentals require justification. The proposed use must require the attributes of these vehicles and not be fulfilled by another type of vehicle (such as a passenger minivan). Certain usage may be disallowed: for example, if there is no research, instruction, off-road, or towing requirement, and the other pool vehicles are simply already booked. The Fleet program manager will provide solutions and assist with making other arrangements for travel if needed.
